

STAR-D-FOAM S

STAR-D-FOAM S is a silicone-based defoaming and wetting agent. STAR-D-FOAM S is suspended in a mineral solvent.

Application STAR-D-FOAM S Used for foam control in conventional fresh water, gel and polymer-based systems. It is ideal for use in environmentally-sensitive area as it is non-toxic.

Advantages

- Non-toxic
- Economical
- Quickly eliminates foaming
- Environmentally friendly

Typical Usages

Typical Amounts of STAR-D-FOAM S Added to freshwater	
Drilling Application	% by Volume
Defoaming	0.125
Wetting Agent	0.125 - 0.25

Properties

Physical Appearance	Off-white opaque liquid
Specific Gravity	0.85
pH	7.5 - 8.5
Base	Silicone

Packaging STAR-D-FOAM S comes in 20L pails with 32 pails/pallet
